

Free standing appliances are another feature of the Nardi collection.

Again, our commitment to achieve the very best quality and use our vast manufacturing experience to reach absolute perfection is at the very basis of these products.

Nardi is an expert in the processing of stainless steel and just a couple of examples are our MGG 100cm cookers and the semi-professional cookers of the series EK - available in the 90 and 60cm versions.

**FREE-STANDING**
